

# TOP NEW: MAGNETIC DESIGN PANELS

DM Silver Magnetic

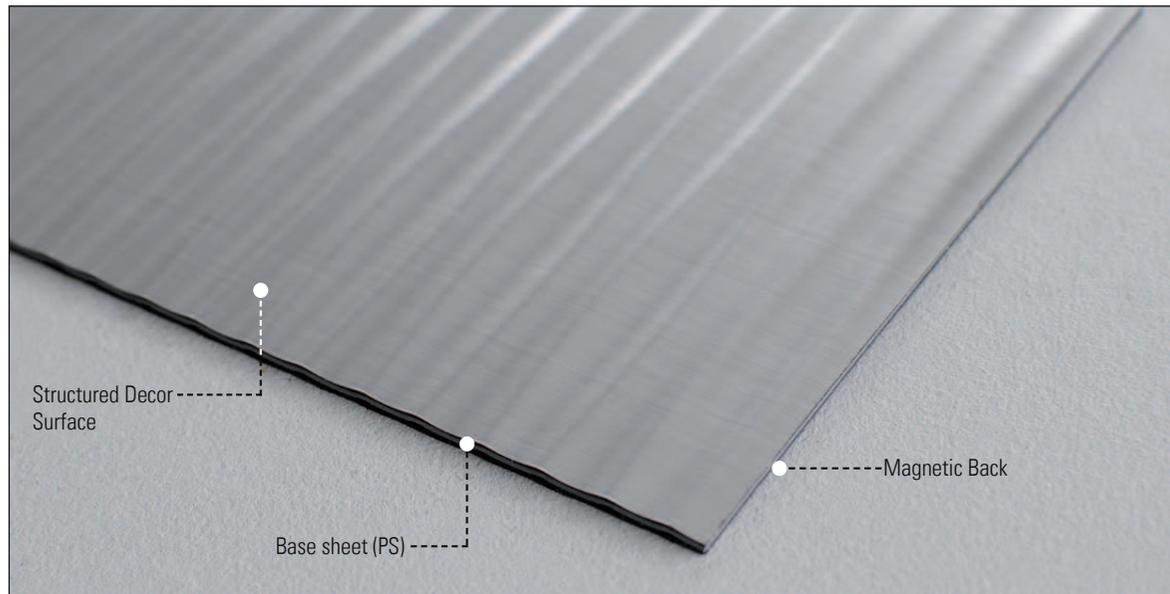

# WANT TO CHANGE INTERIOR?

Besides rare exceptions (all LL ROMBO, LL QUADRO and CR CRISTAL ROMBO products) SIBU design plates are available beginning at 3 pcs. with magnetic back side. The SIBU DESIGN decoration mirror is available in magnetic execution beginning at 1 pc. in the formats 2600x990x1.5 and 2000x990x1.5 flat stored on pallet:

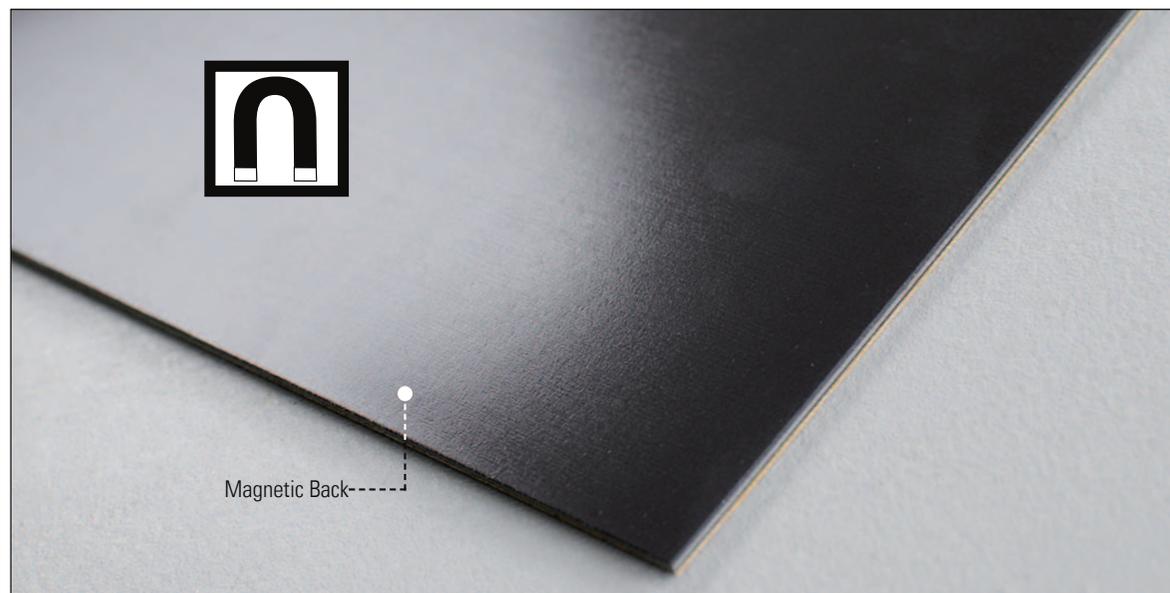

DM Silver, Magnetic, 2600x990x1,5 (art. No. 15903) }  
 DM Silver, Magnetic, 2000x990x1,5 (art. No. 15904) } on the warehouse

This way, the wallpaper change will become a cakewalk! Regardless whether shop window or exhibition stand, furniture, decoration or display area – the range of use of the new SIBU DESIGN Magnetic program is nearly unlimited!

Our sales team provides you with further information.

Composition on the example of SL MOTION TWO Silver brushed matt, AR Magnetic

Back of a magnetic design sheet

## COMPO- SITION

The products of the SIBU DESIGN Magnetic line have a magnetic back. Thus, they stick upon nearly each metallic underground.

The little difference that makes things great!

## GROUND

As a ground, the following surface may be

- Metal panels
- Magnetic Wall Paint ([www.magnetfarbe.at](http://www.magnetfarbe.at))
- Magnetic plastic sheets (performed by a carpenter)

Example of Use SL CROCO Smoke PF met/Silver Magnetic

## ADVANTAGES

- New possibilities of use
- Easy and simple mounting
- Easy to replace
- Clean mounting (without glue)
- May be stored as a mirror
- Most variations are available starting from 3 panels!

## Product Characteristics:

The SIBU magnetic foils are manufactured in calendered execution. The mix of thermoplastic binder and strontium-ferrite powder provides for the desired magnetic characteristics. The SIBU magnetic foils stick well on each appropriate surface.

Product does not contain any softeners as per EC guideline 2005/84/EC.

## Characteristics:

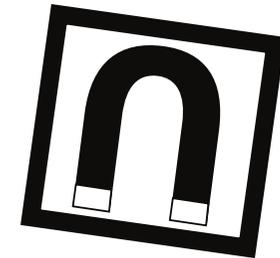

**Thickness tolerance:** +0.5 mm/- 0.5 mm

**Temperature resistance:** 12 g/cm<sup>2</sup> with flat surface

**Specific density:** 3.7 to 3.8 g/cm<sup>3</sup>

**Temperature resistance:** The magnetic foil has the same temperature resistance as the other SIBU products have.

**Cutting:** Cutting always from the upper side/decorated side

## Safe Notices:

1. Harms for health because of handling magnetic foils are unknown.
2. Fire protection class B2 (DIN 4102).
3. Toxicological effects are unknown (strontium-ferrite powder being bound in plastics).
4. Shipping by sea: Product classified as being non-hazardous.
5. Shipping by air freight: Consider packaging guidelines concerning magnetic fields.

Besides, this product is covered by the general regulations to the SIBU DESIGN products!
